Additional Options for Use of Templates:

1. Use them as a guide and process them verbally with family members; schedule a phone call or virtual meeting (e.g., Zoom, Skype, WeChat, FaceTime, Messenger, etc.).
2. Consider them as templates for your own writing, blog posts, and content creation.
3. Continue using them with family after you finish this series, choose new material / resources to discuss and explore connecting with different family members.
4. Record your conversations, either video or audio and share them with your future children.
5. Use them as prayer points as you learn more about one another.
6. Imagine yourself to be another family member and answer the questions... see how well you know them, see what assumptions might be off.
7. Invite a church member to purchase a license and participate in the series with you.
8. Ask a teacher to consider signing up as well.
9. Let your mental health supporters / counselors know you're participating, share your insights with them during sessions.
10. Create your own Connected Conversation Series! What would you add to this curriculum? What would you remove or replace? What very specific expertise or background do you bring to the table that would serve as the next CC theme?
